

PFC – Swing trading analysis | May give a strong bounce!

written by Rajat Kumar Singh

PFC – Swing trading analysis | Timeframe: Weekly

PFC – Swing trading analysis | Timeframe: Daily

- Not a fan of this stock but PA is showing a potential setup.
- The price is resting at the weekly flip zone and just under the 200 weekly MA.
- Seems like a swing failure on the daily chart.
- In terms of candlestick patterns, we can notice the breakout of the inside bar pattern on daily.
- The RSI is strongly curving upwards, indicating a possible relief rally.
